Integrated Process Control and Automation Solutions

What we deliver...

Valin Corporation is your total solution provider of process valves, instrumentation, filtration, heating, controls and automation products. We understand your industry and needs for reliability and being prepared for just-in-time (JIT) manufacturing requirements. Our technical knowledge and market expertise, matched with our value-added service capabilities, makes us the comprehensive solution provider for the Forestry Products and Pulp & Paper Industries.

ISO 9001 Certified

Professional Application Engineers

- Troubleshooting
- Process specification
- Product selection
- Design solutions

Personalized Order Management

- Live assistance
- Customized inventory management
- Online order processing
- Automatic order status notification

Comprehensive Training Programs

- Certified trainers
- Hands-on product & software workshops
- Custom training classes
- On-site lunch & learns

Testimonial

"Valin helped us solve an ongoing problem we were having with our caustic addition valves. The crystallized caustic led to packing failure, excessive leaking and unscheduled shutdowns. Valin's technical team came on site and diagnosed the problem quickly offering us a permanent solution. We no longer have to replace our caustic control valves every 6-8 months and after 3 years we have no caustic leakage issues at all. Valin's technical expertise and understanding of our process saved us time, money and frustration.
