**EMERSON**

# Discrete Automation's Technology Stack Enables 'Floor to Cloud' Solutions

## QUANTIFIABLE CUSTOMER BENEFITS

Sustainability

Productivity

Reliability

Safety

# Part of the Larger PACSystems™ Edge Solutions Portfolio

## RXi EDGE ANALYTICS

Simplifying access and visibility to plant productivity and performance with intuitive, pre-configured analytics.

## RXi SUPERVISOR

Connecting plant assets and production data into a comprehensive, real-time view of production operations with anywhere-access visualization.

## RX3i EDGE CONTROLLER

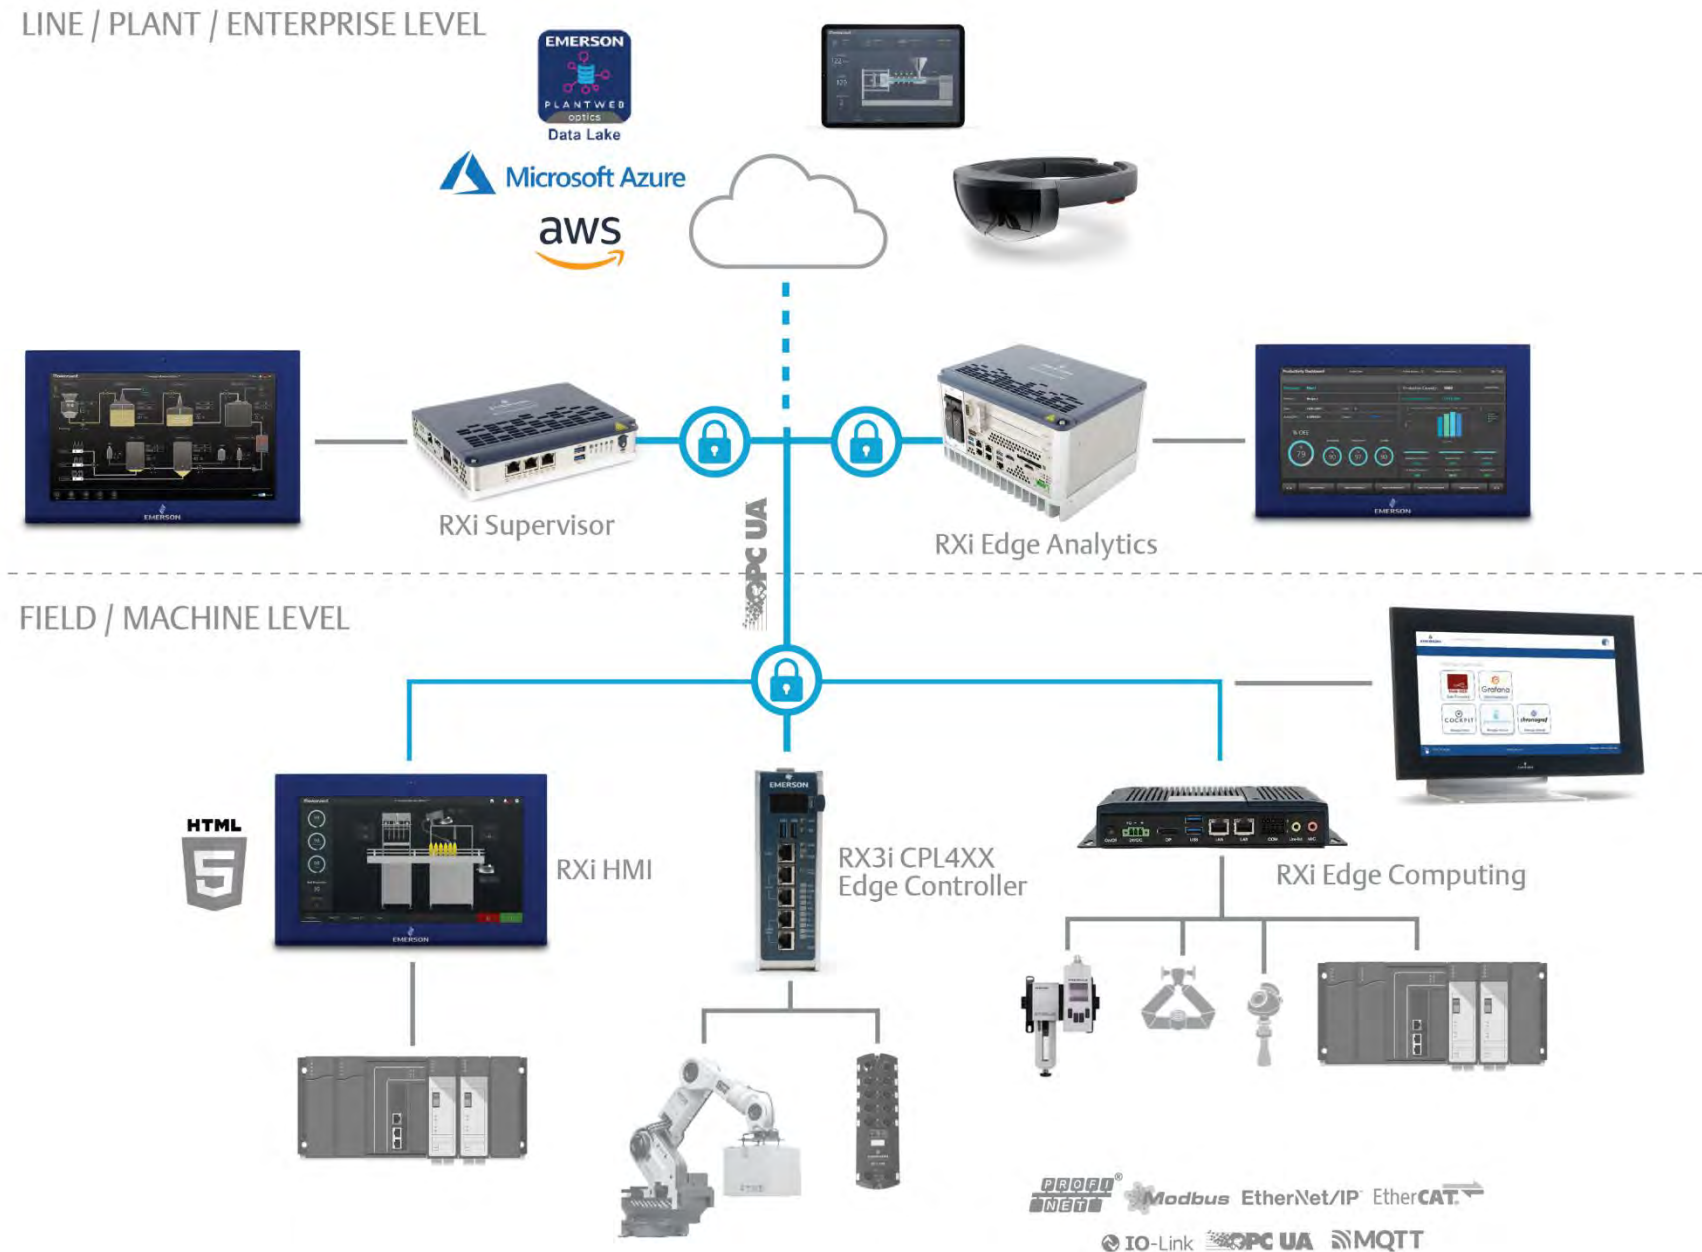

Unlocking real-time process optimization through high-speed, deterministic control and machine intelligence in a single device.

## RXi EDGE COMPUTING

Harnessing data from any source to deliver real-time insights and machine learning that is immediately accessible to operators.

## RXi MODERN MACHINE HMI

Improving visibility into machine operation and performance, and empowering operators with quick access to critical information.

# Discrete Automation Business Unit
